

Scratch Competition

Practice Problem

To make sure the submission system is working for all teams, please do the following before the competition begins:

- Remix the “Practice Problem” template on the template URL (see the competition instructions)
- Make some changes to the project - add a new sprite, perhaps make it move
- Follow the submission instructions to submit your remix to the problem listed as “Practice”
- Check your team’s feedback page to make sure the judges received your submission (it may take a minute for the judges to give feedback)
